Once you have shared your Movie to iTunes (using the TINY size feature), you need to get the movie into Taskstream. To do so, open iTunes on your computer and proceed:

1. Click on the Movies section of iTunes
2. You should see your movie listed.

3. Click and drag the movie to your desktop.
4. Next, open an internet browser and proceed to your Taskstream e-portfolio (http://www.taskstream.com - sign-in to your account)
5. Select the TCPCG folio and navigate to the assignment section under EDCI 5090 (Student Teaching).
6. Select the Video assignment.
7. Using the Video tab, upload your video and make any annotations in the fields provided.
